

Mainstreaming consideration of ecosystem services into land use decision-making under global change

Cecilia Akseleson, Jessica Coria and Yann Clough

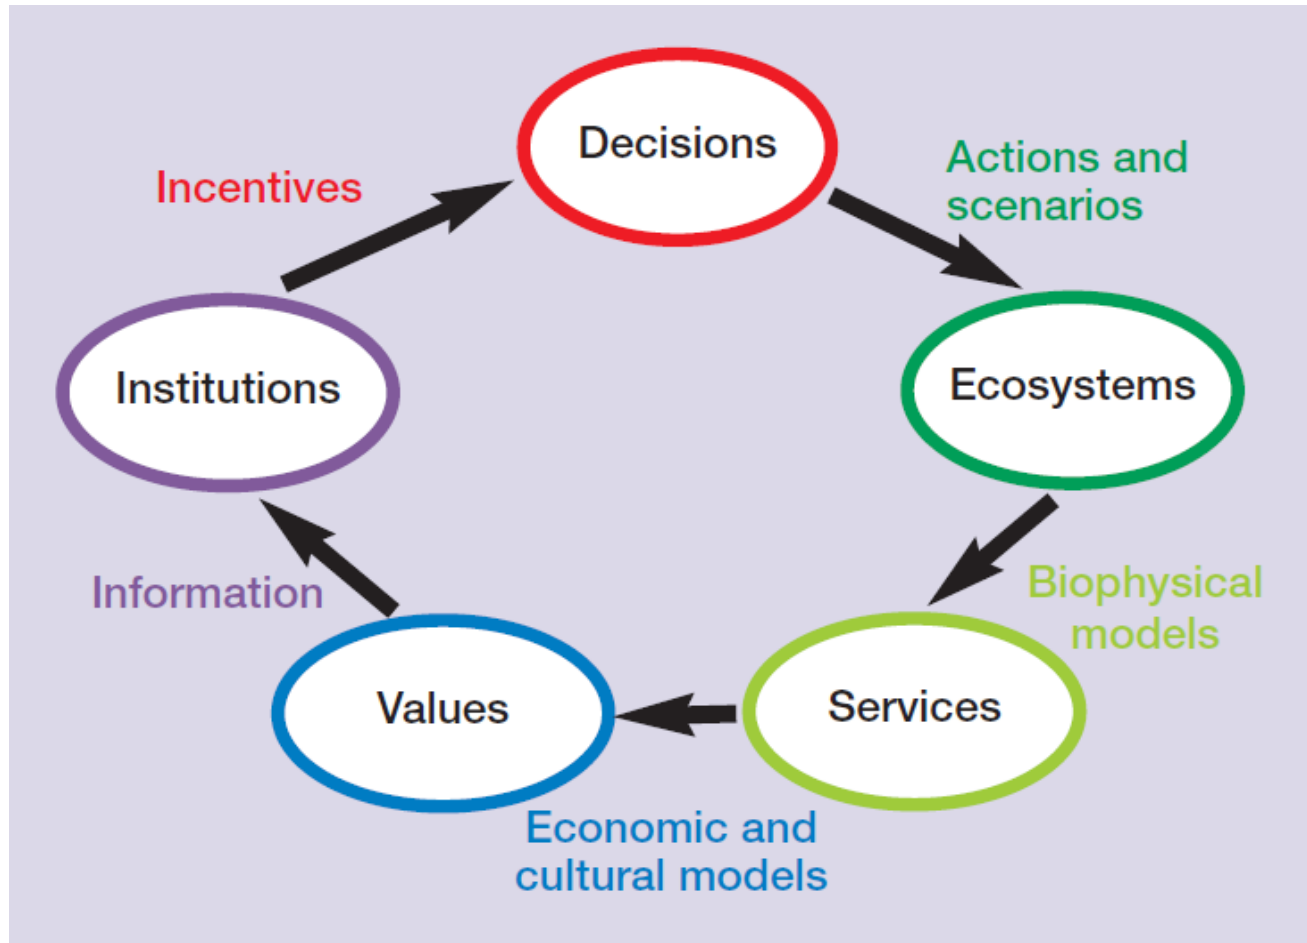

Ecosystem services theme:

- Ecosystem services
- Stakeholder involvement
- Decision support
- Governance

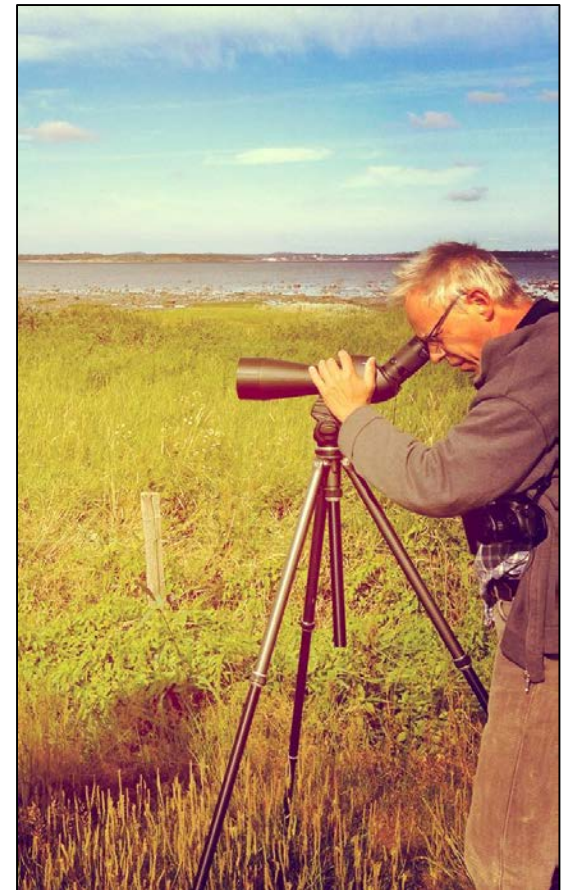

Using ecosystem services for decisions

Our vision is...

“...to be an internationally visible hub generating innovative transdisciplinary science studying and supporting the generation and use of ecosystem services and providing insights for decision making in a society facing global change.”

Mainstreaming consideration of ecosystem services: different levels

Going all the way to ecosystem services...
