

# Mapping forest ecosystem services

A workshop about forest monitoring and stakeholder needs

# Aim

---

- Highlight the needs of stakeholders
- Relate variables of interest with suitable and reliable methods for observation

# Format

---

- 1-day workshop in Lund, September 2017.
- Starting with presentations by researchers and stakeholders
- Afternoon group discussions

# Target stakeholders

---

- Swedish Forest Agency
- Swedish EPA
- Sveaskog
- WWF
- Society for Nature Conservation
- County Administrative Board
- Municipality

# Workshop outputs

---

- List of interesting variables to study:

<b>Variable</b>	<b>Spatial scale</b>	<b>Interval</b>	<b>Approach</b>
Carbon stocks	National/regional	Annual	Field inventories
Species diversity	Stand	Decadal	Land owner reports
Storm damages	Regional/stand	Annual / event based	Remote sensing
...			

# Input

---

- Feedback
- Stakeholders & contacts
- Attractiveness
